LEATHER CONVERSION TABLE	Fabric	Leather
	1 yard	17 square feet
	2 yards	34 square feet
	3 yards	51 square feet
	4 yards	68 square feet
	5 yards	85 square feet
	6 yards	102 square feet
	7 yards	119 square feet
	8 yards	136 square feet
	9 yards	153 square feet
	10 yards	170 square feet

Note: 17 square feet of leather is required for a yard of upholstery fabric.
Note: Average hide measurement is approximately 55 to 60 square feet.

CARE AND MAINTENANCE Dust regularly with a clean, soft cloth. Regular cleaning with a soft, damp cloth is all that is needed to keep your leather beautiful. Should you need a more vigorous cleaning, use only a solution of mild soap and water. Blot gently; never rub aggressively. Never use a cleaner with solvents, alcohol, or wax. Should you use a leather cleaner, always test in a hidden area first.

NATURAL CHARACTERISTICS Healed scars, scratches, cuts and stretch marks are all natural markings and are characteristic of leather.
