

ROUILLARD

WORK POD - WISP 4C-1

TECHNICAL SPECIFICATIONS

GENERAL

This upholstered, self-supporting wall is the perfect solution for creating privacy zones in open areas where work can be performed in comfort and safety. Options include a built-in workboard creating an informal workstation whenever the need arises.

Choose from our vast assortment of fabrics and create your favorite upholstery style (one or two-tones), and select the configuration that matches your needs: without tablet, with booster tablet or with working surface. Wisp will blend seamlessly with your collaborative space while remaining compliant with social distancing measures.

CONSTRUCTION

Each component is fixed into threaded anchors in the steel tubing of the wall.

PANEL

Upholstered panel. Steel tubing of 14 gage covered of a rigid suspension.
